

# Dry smarter with VELO

## VELTIA TRI-BLADE NOW WITH ION TECHNOLOGY

### “THE NEW AIR PURIFICATION SYSTEM”

- Revolutionary Ion Technology
- Most Hygienic Hand Dryer on the Market
- Air & Environment Purifying Hand Dryer
- Emits 20 million negative ions per cm<sup>3</sup>
- Cleans air of bacteria, mites & odours.

Velo Veltia’s new hand dryer with inbuilt ion technology is one of the most revolutionary dryers on the market. It offers unmatched comfort, hygiene and environmental benefits compared with other dryers.

Pollution which is generated from things like dust, pollen and smoke is charged with positive ions that can cause health problems such as asthma, allergies, fatigue and headaches.

The inbuilt Ion air and environmental purifier in the Velo Veltia emits negative ions that combat the harmful positive ions in the environment.
