

velo LIQUID SOAP DISPENSER

- Automatic powered soap dispenser with infrared sensor for wall installation.
- Suitable for soap and foam soap with pump (VELO 03038.FP) not included.
- Stainless steel sheet housing black finish. Also available in satin finish (VELO 03039.S), gloss finish (VELO 03039.B), white finish (VELO 03038.W) and other colors.
- With content viewer and security lock.
- Suitable for public places of high frequency of use.
- Led shows that indicates when batteries replaced.
- Suitable for alcohol based disinfectants.

velo TECHNICAL DATA

- Made of AISI 304 stainless steel black finished.
- Electronic infrared sensor that stops the dispenser when the hands are removed from the detection field.
- Capacity: 1000 ml. Refillable.
- Works with 6 batteries of 1,5 V.
- Dimensions: 275 height x 105 width x 95 depth (mm).
- Operation: place your hands under the dispenser. This is activated automatically, remaining in operation while the hands are inside the sensor field. The dispenser goes off when you remove your hands.
- Maintenance: stainless steel needs maintenance because dust can eventually damage the chromium (Cr) content in stainless steel. We recommend monthly cleaning with a stainless steel special cleaner.
- Installation: place at least 45 cm from the worktop surface.
